**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "superior" in claim 1 is a relative term which renders the claim indefinite. The term "superior" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4-11 and 13-19 are rejected under 35 U.S.C. 102(b) as being anticipated by McLarty III et al (5533789).

The disclosure of McLarty III et al (5533789) teaches a knitted color-fast material to the

Art Unit: 3765

extent claimed including a first component (30) with substantial stretch properties and a second component (34) with substantially lower stretch properties than those of the first component.

The material is a fabric manufactured by knitting and the components are dyed prior to fabric formation for providing a material having a color-fastness and color-uniformity in both stretched and relaxed states. Note that the second material (34) is solution dyed. See column 3, lines 44-48.

### ***Claim Rejections - 35 USC § 103***

Claims 3 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over McLarty III (5533789).

The disclosure of McLarty III et al teaches a knitted colorfast material as claimed except for the first component being solution dyed. It would have been obvious at the time the invention was made to provide the first yarn component as a solution dyed component so that the dye is distributed evenly throughout the yarn rather generally on the yarn surface.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
